COLLECTION

COLLECTION ESCAPADE

BECAUSE...

Because Paris is unique, because Paris symbolizes French elegance, because Paris inspires creators, designers and architects, our **collection ESCAPADE** is a leap on a sensory journey - where wood species meet, styles are invented, the story is created... it's up to everyone to invent their own getaway.

The **collection ESCAPADE** was designed for a bathroom with a warm, romantic and natural atmosphere. Marked by a style with a noble past, particular attention has been paid to the excellence of the manufacturing and the materials used.

MATIGNON & VENDÔME BATHUBS

SYMBOLIC OF SHAPES

The Matignon bathtub offers a contrast between strict lines and its interior curves, a harmonious representation of masculinity and femininity. Its comfort will bring serenity and relaxation.

« PRIVATE BATH »

Inspired by traditional Japanese wooden baths, Ofuro incorporates the refined codes of the Japanese bath through its design. The original touch: the visible emptying system positioned on the outer side of the tank.

Interesting: wood has natural thermal insulation qualities that help maintain the temperature of hot water longer.

OFURO & BENQUE BATHUBS

E C O - D E S I G N E D

A personality of French design, Éric Benqué collaborates with our craftsmen-cabinetmakers to eco-design the bathtub. It was after training at ENSCI-Les Ateliers, then obtaining the Bettencourt prize in 2013 that Eric Benqué designed one of our wooden bathtubs.

A piece of character that proudly bears its name, it questions the relationship between objects and space and the place of craftsmanship in our interiors. This creation was made from oak trees originating from Burgundy
