

ART DECO towel warmer/radiator

The CINIER Art Deco radiator is made with a 1-1/4" - 3cm thick panel in Olycal stone quarried in the Pyrenées mountains mounted on a powder coated metal frame to allow wall installation. The Olycal stone and the large surface of the CINIER radiators allow the heat output generated by the radiator to radiate in an homogeneous pattern and to remain at a temperature of 95°-113°F/35 to 45°C in normal operation for a higher comfort and safety level with a maximum of 149°C/65°F.

These unique characteristics allow the CINIER radiator to be the most comfortable heating solution available to date. All electrical components used to make the electric version of the CINIER radiator are UL listed. The radiator can be supplied with a thermostat.

The Art Deco radiator weighs 112 lbs-50kg in the 51-1/4"x20" version & 220 lbs-100kg in the 86-1/2"x32" version. Other dimension available: 78-3/4" x 20" / 200 x 50cm.
Can be ordered with 1 extra towel hook.
Customer can also provide his own towel hooks, in such case they are installed at the time of fabrication.
Electric version, 120V for the US and Canada: 600 W-2050 Btu output in the 51-1/4" version.
Hydronic version with copper coil embedded in the Olycal stone, 579 W-1977 Btu output in the 51-1/4" version.

Art Deco Towel Warmer dimensions available:
51-1/4" x 20" / Elect. 2050 Btu – Hydr. 1977 Btu.
78-3/4" x 20" / Elect. 3074 Btu – Hydr. 3085 Btu.
86-1/2" x 32" / Elect. 5464 Btu – Hydr. 5365 Btu.

Thermostat for hydronic version:
Oventrop thermostat mounted on the back of the radiator - right of left upon request.

Refer to chart of colors to see colors available.

Thermostat for electric version:
Honeywell thermostat wall mounted, sold separately
Please refer to Honeywell product sheet available upon request.

5 years manufacturer's warranty.

Made in France by Ateliers Cinier.
