

## BAMBOO towel warmer/radiator

The CINIER Bamboo radiator is made with a 1-1/4" - 3cm thick panel in Olycal stone quarried in the Pyrenées mountains mounted on a powder coated metal frame to allow wall installation. The Olycal stone and the large surface of the CINIER radiators allow the heat output generated by the radiator to radiate in an homogeneous pattern and to remain at a temperature of 95°-113°F/35 to 45°C in normal operation for a higher comfort and safety level with a maximum of 149°C/65°F.

These unique characteristics allow the CINIER radiator to be the most comfortable heating solution available to date.

All electrical components used to make the electric version of the CINIER radiator are UL listed. The radiator can be supplied with a thermostat.

The Bamboo radiator weighs 158 lbs-71kg in the 70-3/4" version.  
A bamboo stick is mounted on 2 towel bars and can be ordered in any colors.  
The position of the towel bars cannot be changed by customer.  
Additional towel hooks can be added at the time of ordering, they are installed at the time of fabrication.  
Electric version, 120V for the US and Canada with 900 W-3074 Btu output in the 70-3/4" version.  
Hydronic version with copper coil embedded in the Olycal stone, 803 W-2742 Btu output in the 70-3/4"

Bamboo towel warmer radiator also available:

78-3/4" x 19-3/4" / 200cm x 50cm

Heat output:

Elect 1000W-3415Btu / Hydr 892W-3045Btu

Refer to chart of colors for other colors.

5 years manufacturer's warranty.

Thermostat for electric version:

Honeywell thermostat wall mounted, sold separately.  
Please refer to Honeywell product sheet available upon request.

Thermostat for hydronic version:

Oventrop thermostat mounted on the back of the radiator – right of left upon request.

Made in France by Ateliers Cinier.
