CINIER NA
BY PSCBATH

ORBEO towel warmer/radiator

The CINIER Orbeo radiator is made with a 3/4”- 2cm thick panel in Olycal stone quarried in the Pyrenées mountains mounted on a powder coated metal support to allow wall installation.
It can be covered with a ¼” mirror beveled to a thickness of 3/32” at the edge.
The Olycal stone characteristics allow the CINIER radiators to generate a heat output which radiate in an homogeneous pattern and to remain at a reasonable temperature of 150°F/65°C maximum for a higher comfort and safety level.
These unique characteristics allow the CINIER radiator the most comfortable heating solution available to date. The Orbeo towel warmer radiator operates with an IP 67 24 volt transformer and all electrical components used for this towel warmer radiator are UL listed. There is an on-off switch on the side of the support and it includes a built-in max temperature thermostat to automatically turn-off the towel warmer radiator.

Orbeo in grey IS-52
Space for 2 rolled towels + 2 towels hooks on each side of

The Orbeo radiator weighs 26 lbs-12kg.
Overall thickness: 5-1/2” - 14 cm
Diameter 20” - 50cm
Option of silver or bronze mirror, pricing upon request.
Electric version, 14 Volt with 80 Watt energy consumption and 130°F temp.
