

MIRE Floor lamp – White LED light

During the day or at night, the LT MIRE floor lamp is a decorative fixture. It is illuminated with 540 LED lights.

The LT MIRE fixture comes with 10Ft of wire and a floor switch, the power supply is connected to a UL listed MeanWell driver inside the fixture and a dimmer is on the side of the Olycal stone base to turn on the LED light all around the frame. The dimmer allows to change the intensity from minimum light to 100% depending on the light you wish to have. The concrete base has a hand patina to give it a special finish.

For the same output, the LT MIRE saves 75% energy compared to a standard lighting fixture.

Weight : 32 lbs / 14.25 kg

Height : 90-1/2" / 230 cm

Width : 10-1/4" / 26 cm

Frame : black or white color
