

LUBOIS Floor lamp – White LED light

During the day or at night, the LT LUBOIS floor lamp is a decorative fixture. It is illuminated with 540 LED lights.

The LT LUBOIS fixture comes with 10Ft of wire and a floor switch, the power supply is connected to a MeanWell driver inside the fixture and a dimmer on the side of the Olycal stone base to turn on the LED light on both wooden posts. The dimmer allows to change the intensity from minimum light to 100% depending on the light you wish to have.

The concrete base has a hand patina to give it a special finish with 4 levelling domes. For the same output, the LT LUBOIS saves 75% energy compared to a standard lighting fixture.
Weight: 50 lbs / 22 kg
Height: 60 to 110-1/4"/150 a 280cm
Width: 10" / 21 cm
Posts: Ash wood.
