

### TRIO Wall Sconce – WHITE or RGB LED light

During the day, the LT TRIO wall sconce is a decorative fixture.

At night, it is illuminated with 600 LED lights.

There are several ways to enjoy the fixture and create the desired ambiance:

The LT TRIO can be set to automatically change the intensity of the lighted frames by simply using the infrared remote control.

The 3 frames can be turned on with the remote either simultaneously or separately, the remote changes the intensity from minimum light to 100% depending on the light you wish to have. In addition there is a lighting program where the light comes on the 1<sup>st</sup> frame then reduces to transition to the 2<sup>nd</sup> and again from the 2<sup>nd</sup> frame to the 3<sup>rd</sup>. At the same time, it is also possible to modify the intensity of the light on each frame and the speed at which the light transitions from the 1<sup>st</sup> frame to the 2<sup>nd</sup> and from the 2<sup>nd</sup> to the 3<sup>rd</sup> frame.

For the same output, the LT TRIO saves 75% energy compared to a standard lighting fixture.

Weight : 26 lbs / 12 kg

Height : 59-7/8" / 152 cm

Width : 41" / 104 cm

Frame : Black or white color

Power supply 120V. UL Listed transformer included.  
Energy consumption : 100 W maxi.

Clear LEDs (warm white 3000K\* or neutral white 4000K)

- White, subtle and minimalist (warm white or neutral white)

Lighting output : 7500 Lumens

- White + RGB color LEDs, versatile with colors

Lighting output : 3000 Lumens

K=Kelvin defines the color temperature, the higher the value, the brighter the light is. More info on google at Kelvin light chart

### TRIO Wall Sconce – WHITE or RGB LED light

Models available:

Model	Frame color	LED Color	Size	Watts (consumption)	Lumens (output)
TRIO-W-3000k-120V-BF	Black	Warm white	59-7/8" X 41"	0-100W	0-7500
TRIO-W-3000k-120V-WF	White	Warm white	59-7/8" X 41"	0-100W	0-7500
TRIO-W-4000k-120V-BF	Black	Neutral white	59-7/8" X 41"	0-100W	0-7500
TRIO-W-4000k-120V-WF	White	Neutral white	59-7/8" X 41"	0-100W	0-7500
TRIO-RGB-120V-BF	Black	White+ RGB	59-7/8" X 41"	0-100W	3000
TRIO-RGB-120V-WF	White	White+ RGB	59-7/8" X 41"	0-100W	3000

UL Listed transformer included.

Remote control included.

### UL Recognized Component Mark

These are Marks consumers rarely see because they are specifically used on component parts that are part of a larger product or system. These components may have restrictions on their performance or may be incomplete in construction. The component recognition marking is found on a wide range of products, including some switches, power supplies, printed wiring boards, some kinds of industrial control equipment and thousands of other products.

Just as with the UL Listing and Classified Marks, there are three variations of UL's Recognized Component Mark: one for the United States only, one for Canada only and one for both the United States and Canada. The C-UR Mark is applied to components only used in the Canadian market. Components with this type of Mark have been evaluated to Canadian standards. The optional C-UL-US Component Recognition Mark indicates compliance with both Canadian and U.S. requirements.

Selecting the LT TRIO is electing to reduce the energy consumption of your home. CINIER LT TRIO LED products combine a high quality LED to a unique lighting design.
