Counter Vessel

Who says bathroom furniture only has to be white?

In order to disprove the belief that "White is elegant", Horganica offers you a series of combinations where color takes center stage, resulting in the new Bucchero Bis collection: an original and different way to furnish the bathroom in a unique way, bringing a breath of fresh air to this part of the home as well.

It has to match the style you wanted to give to your home so as to continue the mood you have chosen.

The Bucchero Bis line is made with 100% Made in Italy ceramics. Imagine the scene: you open the bathroom door and your attention is stolen by this element that towers over all the others. And if it is illuminated and made to stand out by a large backlit mirror: the wow effect is truly assured.
