BUCCHERO ROUND

MATT BLACK

BCC01TMNO

BUCCHERO.

The collection Bucchero was created after various studies and experiments of the skilled hands of our artisans with ecomalta.

The brand Horganica has shown once again its ability to recall nature during the ceramic production process with this line with soft features that characterize two different shapes, round and oval, to meet practical needs and make the bathroom unique.

The search for particular resins embraces the recovery of lost manual skills

in a unique product, different from all the others and 100% Made in Italy. Innovative materials are added to the ceramic to create new harmonies and new designs.

Bucchero, the union between tradition and modernity ... not a simple washbasin, but a work of art

BUCCHERO.

La collection Bucchero prend vie des mains de nos experts artisans et de leurs études et expérimentations avec l'ecomalta. Horganica montre encore une fois sa capacité de rappeler la nature pendant le processus de production avec cette ligne de lavabos aux traits doux qui caractérisent deux différentes formes, ronde et ovale, pour satisfaire les exigences et rendre la salle de bains unique.

La recherche de résines particulières et la récupération des compétences manuelles perdues se fondent dans un produit unique, différent de tous les autres et 100% fabriqué en Italie. Des matériaux innovants s'ajoutent à la céramique pour créer de nouvelles harmonies et un nouveau design.

Bucchero, l'union entre tradition et modernité...ce n'est pas qu'un simple lavabo, mais une œuvre d'art.
